

Eyelet Measurement Guide

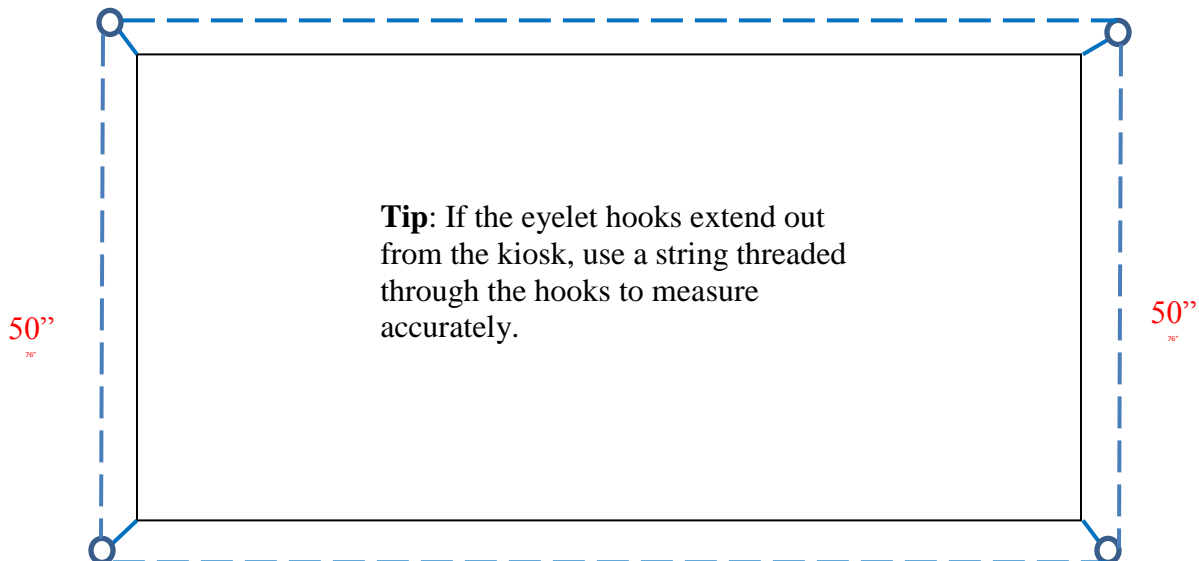

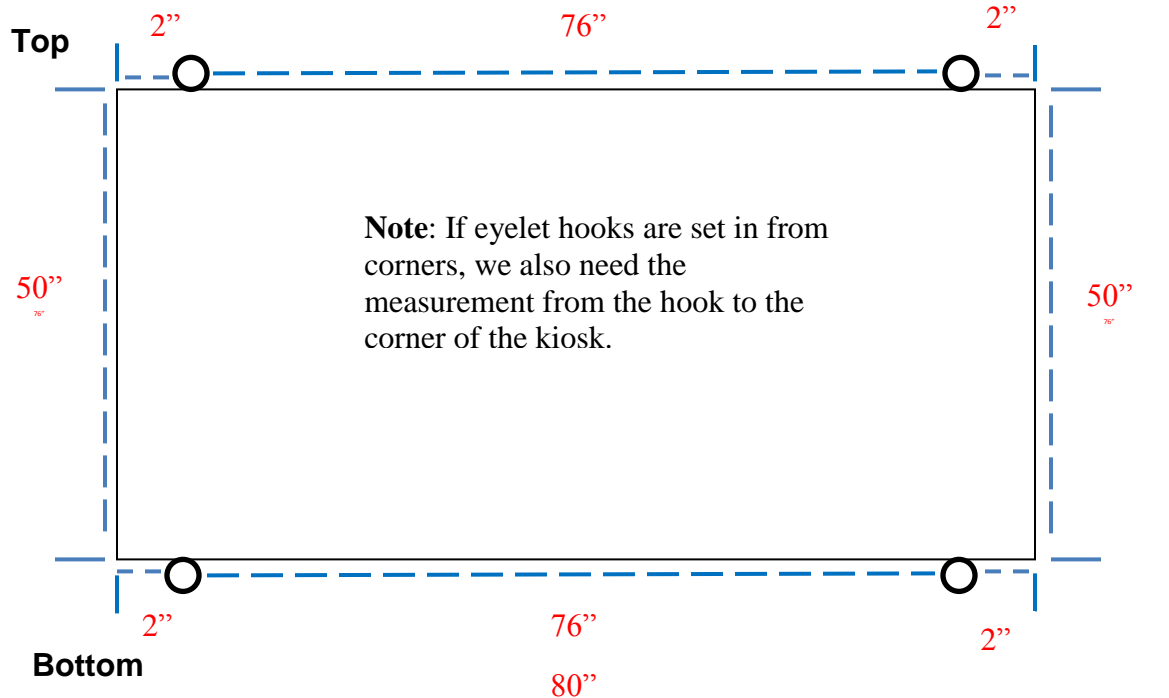

Phone: 719-599-0300 Email: info@equipinc.com

Purpose: The measurements provided in this guide are used to calculate the length of the security cables, and the placement of the openings in the cover seams.

Instructions: This is a bird's eye view of the top and bottom of an RMU.

- Use page 2 for your measurements, following the examples on page 1.
- Please indicate the placement of each eyelet hook and measure the distances from hook to hook.
- This process needs to be done for the hooks on the top AND bottom of the cart.
- Eyelet hook positions vary for every kiosk! Please follow the examples below as closely as possible, keeping in mind that your eyelet hook placements may look different.
