

## Grommet Placement

This is a bird's eye view of the top of an RMU. Please indicate placement and measurements between eyelets/hasps. Start measurements from one corner of the RMU and measure in between each individual eyelet all the way around the cart. If any eyelet is offset from the corner of the unit, please make sure to include the measurement from the corner to the eyelet. (Example Provided on Page 2)

Please fill out one sheet for the grommets on the top of the unit, and one for the grommets on the bottom of the unit. (See Example on Page 2)

### Top

A large, empty rectangular box with a thin black border, intended for recording grommet placement and measurements on the top of the unit.

### Bottom

A large, empty rectangular box with a thin black border, intended for recording grommet placement and measurements on the bottom of the unit.

Example

76"
